

Our Approach

Blacktree aims to be a leading investment firm in the world.

Based in Singapore, we seek to create positive economic impact and long-term value for our investors. We do this by using extraordinary people and flexible capital to help companies solve problems.

We are relentlessly focused on identifying great entrepreneurs building great companies at all stages. We invest across early and late-stage opportunities – from early Series A and B to growth-stage companies – but always backing teams that can leverage our support to scale. We take a long-term view of investing, betting on the entrepreneurs who deeply understand their market, are passionate about their product, and are driven to win.

Our investments are designed to preserve and grow our limited partners' capital, provide financial security for the institutional and individual investors, and contribute to overall economic growth.

At Blacktree, we apply our capabilities as a leading global investment firm to deliver solutions, unlock value and propel growth. We focus on attracting exceptionally talented people and on creating an atmosphere that rewards initiative, independent thinking, and integrity. Our solid financial base, including strong capital, ensures our capacity to deliver on our commitments.
