We strive to create value by investing in great businesses where our capital, strategic insight, global relationships and operational support can drive transformation that unlocks the company's potential.

We are patient investors who practice the art of the long view, and are committed to achieving the best long-term outcomes for our businesses and our investors.

Our investment approach is based on a disciplined due diligence process that measures risk while identifying the catalysts for increased value. We purposefully engage only in friendly transactions and work with talented management teams to achieve transformative results.

The returns that these investments earn for our investors, help to secure and grow the assets needed to fund essential programs.
